Financial Disclaimer

Meowtrix is not a security nor does it offer securities.

Meowtrix tokens (MWTX) are not financial securities or negotiable financial instruments. MWTX tokens are digital assets on the Solana blockchain. They can be swapped with other digital assets on the Solana blockchain but cannot be swapped, purchased, or sold directly with traditional currency.

About

Founded March 15, 2024 by Adam Gersbach, Australian startup mentor with over 30 years of business experience. Meowtrix is a unique entrepreneurial project that embodies the meme coin culture - representing creative expression, humor, and freedom.

Vision

The grand vision is to produce an anime series developed by combining traditional animation and AI.

The basic roadmap to achieve this vision:

1. Grow a community of people who like meme coins and cat memes
2. Attract a group of Inner Circle members who wish to support the vision.
3. List on major centralized exchanges (Q1 2025)
4. Become a decentralized autonomous organization, DAO (Q1 2025)
5. Launch an AI workstation for digital content creators and animators (Q2 2025).
- The founder, Adam Gersbach owns <https://captain.cx> and will donate it to Meowtrix when the DAO is launched. It will then be rebranded as an AI tool for Animators.
6. Release a pilot episode of the first anime series
7. Promote the pilot to major distribution networks.
